- Everything in free version plus:
- SD video
- HD video
- Audio only call
- Room passcode (part of CRPO security checklist)
- Edit waiting room
- Text & email notifications
- Meets CRPO Security for Electronic Practice Checklist

## ZOOM

I did not include zoom (basic, pro & business versions) in this list due to the security issues related to this platform. If you practice in Ontario please read the following [article](#) on PHIPA and Zoom from the University of Western Ontario Technology Services that was published on April 13, 2020. There is a [zoom for healthcare](#) platform that meets all security and privacy issues related to telehealth.

## **FINAL CONSIDERATIONS**

Please remember that it is your responsibility to be sure you are practicing ethically and legally within the guidelines of your professional order. We are simply giving you general information about some of the various platforms that are available to you.
